AutoCAD® / AutoCAD LT

Beyond the Basics

AutoCAD®/AutoCAD LT® Beyond the Basics course continues from the topics covered in the AutoCAD®/AutoCAD LT® Essentials course. This course covers more sophisticated techniques that extend the students mastery of the program. For example, students go beyond the basic skill of using a template to understand the process of setting up a template, creating annotation styles, and how to work with external references.

COURSE OF FOCUS:

- Using more advanced editing and construction techniques
- Adding parametric constraints to objectsOrganizing drawing objects on layers
- Creating local and global blocks
- Setting up layers, styles, and templatesAdding text, hatching, and dimensions
- Using advanced plotting and publishing options

PREREQUISITES:

- Knowledge of AutoCAD® basics as taught in AutoCAD®/AutoCAD LT® Essentials, or equivalent experience
- A working knowledge of basic design/drafting procedures and terminology
- A working knowledge of your operating system

The AutoCAD/AutoCAD LT Essentials course is designed for those using the AutoCAD® or AutoCAD LT® software with a Windows operating system. This course is not designed for the AutoCAD for Mac software.

This course is not recommended for users that have completed the AutoCAD®/AutoCAD LT® Fundamentals training as Essentials contains the same content.
